SUBJECT INDEX

Volume 120 (JULY-DECEMBER, 2001)

- Abeiximab, alveolar hemorrhage as a complication of treatment with, 126
- Abdominal muscle, activity in sleep apnea during continuous positive airway pressure titration, 390
- Abnormalities, cerebral metabolic, in COPD patients detected by localized proton magnetic resonance spectroscopy, 1506
- CHEST 2001, scientific highlights: abstracts of original investigations and case reports, Oct. Suppl., 329S
- craniofacial, relationship between, and sleep-disordered breathing in Marfan's syndrome, 1455
- a 53-year-old man with hemoptysis, 298
- hypoplastic left-heart syndrome: the first description of the pathophysiology in 1851; translation of a publication by Dr. Bardeleben from Giessen, Germany, 1368
- 38-year-old man with tracheomegaly, tracheal diverticulosis, and bronchiectasis, 1018
- Accidents, faulty design resulting in temporary pacemaker failure, 684
- severe hypothermia in an intensive care unit: prognosis and outcome, 1998
- ACCP-SEEK board review question of the month, a 55-year-old woman with intrapulmonary nodule in transplanted lung, 2057
- ventilator management of 70-year-old man utilizing an airway pressure/lung volume loop, 1723
- Acetylthiothiophenol, effects of cardiac glycosides on atrial fibrillation, 1753
- Acid-fast bacilli smear, smear-negative pulmonary tuberculosis in industrialized countries, 330
- Acid-fast microscopy, lessons from a proficiency testing event for, 250
- Acidosis, lactic, mitochondrial disease: a pulmonary and critical-care medicine perspective, 634
- threshold, effects of dobutamine on critical capillary PO₂ and, in patients with cardiovascular disease, 1218
- Acinetobacter baumannii*, severe community-acquired pneumonia due to, 1072
- severe community-acquired pneumonia: the need to customize empiric therapy, 1053
- Acoustic imaging of the human chest, 1309
- Acoustics, inhaled beclomethasone improves measures of voice in patients with asthma, 1829
- Acquired immunodeficiency syndrome: See also HIV infections; acute eosinophilic pneumonia in, 1732
- CHEST 2001, scientific highlights: abstracts of original investigations and case reports, Oct. Suppl., 133S, 210S
- Heimlich valve in the management of pneumothorax in patients with advanced AIDS, 15
- less is more? 1
- Pneumocystis carinii* pneumonia in pregnancy, 666
- related alveolar hemorrhage: a prospective study of 273 BAL procedures, 1078
- Activity: See Exercise
- Acute chest syndrome, plastic bronchitis and the role of bronchoscopy in, of sickle cell disease, 608
- Acute Physiology and Chronic Health Evaluation: See APACHE
- Acute pulmonary toxicity: See Pulmonary toxicity, acute
- Acute respiratory distress syndrome (ARDS): See Respiratory distress syndrome, adult
- Adamantides-Behçet's disease, some more historical notes on, 2115
- Adenocarcinoma, effect of smoking cessation on major histologic types of lung cancer, 1577
- lung cancer treated surgically in patients < 50 years of age, 32
- surgery for second lung cancers, vol. 118:1621-1625; clarification, vol. 120:324; erratum, vol. 120:325
- Adenosine, cardioprotective effect of pretreatment in coronary artery bypass grafting, 860
- deaminase, in the diagnosis of tuberculous pleural effusion, 334
- deaminase, levels in nontuberculous lymphocytic pleural effusions, 356
- monophosphate, lost in the labyrinth of end points, 323
- triphosphate, mitochondrial disease: a pulmonary and critical-care medicine perspective, 634
- Admissions: See Hospitalization
- Adolescence, effect of inhaled budesonide on bronchial hyperresponsiveness in adolescents with clinical remission of asthma, 1140
- our antismoking campaign, 690
- Adrenergic agonists, β_2 , electrolyte disturbances in patients with chronic, stable asthma: effect of therapy, 431
- lost in the labyrinth of end points, 323
- salmeterol powder provides significantly better benefit than montelukast in asthmatic patients receiving concomitant inhaled corticosteroid therapy, 423
- Adrenergic agonists, β_2 , alternative mechanisms for long-acting β_2 -adrenergic agonists in COPD, 258
- emergency department visits in asthma: should all be prevented? 1058
- inhaled, effects of, on lower esophageal function: a dose-response study, 1184
- Adrenergic β_2 adrenoceptors, exercise not asthma, 1434
- polymorphism and body mass index are associated with adult-onset asthma in sedentary but not active women, 1474
- polymorphism of, in COPD in Chinese subjects, 1493
- Adult respiratory distress syndrome (ARDS): See Respiratory distress syndrome, adult
- Advertising, medicine and the media, 693
- Aerosols: See also Nebulizers; bacterial/viral filtration: let the breather beware! 1377
- effects of inhaled corticosteroid and short courses of oral corticosteroids on bone mineral density in asthmatic patients: a 4-year longitudinal study, 1468
- emergency department visits in asthma: should all be prevented? 1058
- history and evolution of aerosolized therapeutics, Sept. Suppl., 87S-131S [overview and introduction, 87S; delivery options and devices, 89S; formulation of, 94S; treating diabetes with aerosolized insulin, 99S; administration of aerosolized antibiotics in cystic fibrosis patients, 107S; tobramycin solution for inhalation in bronchiectasis patients with *Pseudomonas aeruginosa*, 114S; microbiological and immunologic considerations, 118S; gene therapy in cystic fibrosis, 124S]
- inhaled beclomethasone improves acoustic measures of voice in patients with asthma, 1829
- ipratropium bromide hydrofluoroalkane inhalation is safe and effective in patients with COPD, 1253
- African-Americans, impact of race in lung cancer: analysis of temporal trends from a surveillance, epidemiology, and end results database, 55
- Age and aging, brain natriuretic peptide blood levels in the differential diagnosis of dyspnea, 2047
- Committee on Manpower of Pulmonary and Critical Care Societies: a report to membership, 327
- correlates of peak expiratory flow lability in elderly persons, 1861
- effect of, on respiratory defense mechanisms: pulmonary bacterial clearance in Fischer 344 rats after intratracheal instillation of *Listeria monocytogenes*, 240
- an 8-year follow-up of carbon monoxide diffusing capacity in a general population sample of northern Italy, 74
- evaluation of health outcomes in elderly patients with asthma and COPD using disease-specific and generic instruments: the Salute Respiratoria nell'Anziano (Sa.R.A.) Study, 734
- impact of menopause on the prevalence and severity of sleep apnea, 151
- low compliance with national standards for cardiovascular emergency preparedness at health clubs, 283
- lung cancer treated surgically in patients < 50 years of age, 32
- prognostic power of dobutamine echocardiography after uncomplicated acute myocardial infarction in the elderly, 1200

- surgery for second lung cancers, vol. 118:1621-1625; clarification, vol. 120:324; erratum, vol. 120:325
- transesophageal echocardiographic study on risk factors for stroke in elderly patients with atrial fibrillation: a comparison with younger patients, 840
- AIDS: See Acquired immunodeficiency syndrome
- Airflow obstruction: See Airway obstruction
- Airflow resistance, nasal, combined effects of a nasal dilator and nasal prongs on, 397
- Air trapping, centrilobular nodules correlate with, in diffuse panbronchiolitis during erythromycin therapy, 198
- Air travel: See Aviation
- Airway: See also Airway obstruction, *below*; alternative mechanisms for long-acting β_2 -adrenergic agonists in COPD, 258
- asthma patients, evaluation of blood vessels and edema in: regulation with clarithromycin treatment, 416
- competence, predictors of extubation outcome in patients who have successfully completed a spontaneous breathing trial, 1262
- complications, evidence-based guidelines for weaning and discontinuation of ventilatory support, Dec. Suppl., 375S-484S
- complications, interventional bronchoscopy for the management of, following lung transplantation, 1894
- effect of inhaled budesonide on bronchial hyperresponsiveness in adolescents with clinical remission of asthma, 1140
- hyperreactivity, endobronchial involvement and, in patients with sarcoidosis, 881
- hyperresponsiveness, do inhaled corticosteroids affect perception of dyspnea during bronchoconstriction in asthma? 770
- hyperresponsiveness, lost in the labyrinth of end points, 323
- hyperresponsiveness, preoperative steroid therapy inhibits cytokine production in the lung parenchyma in asthmatic patients, 1175
- impact of menopause on the prevalence and severity of sleep apnea, 151
- increased expression of the chemoattractant cytokines eotaxin, monocyte chemoattractant protein-4, and interleukin-16 in induced sputum in asthmatic patients, 595
- inflammation as an assessment of chronic nonproductive cough, 1114
- inflammation, elevated concentrations of exhaled hydrogen peroxide in asthmatic patients, 1136
- inflammation, exhaled carbon monoxide and nitric oxide in COPD, 496
- inflammation, smoking and, in mild asthma, 1917
- management, oculopharyngeal muscular dystrophy complicating, 2100
- men are from Mars, women are from Venus: lessons to be learned from the differences between the sexes, 1432
- perception of dyspnea in patients with mild asthma, 409
- pressure-release ventilation, treatment of ARDS, 1347
- small, function, can peak expiratory flow measurements estimate, in asthmatic children? 482
- stenosis, fiberoptic bronchoscopic balloon dilatation in malignant tracheobronchial disease: indications and results, 43
- stenosis, forced oscillation technique to evaluate tracheostenosis in patients with neurologic injury, 69
- upper, collapsibility: measurements and sleep effects, 156
- upper, dimensions, gender differences in the expression of sleep-disordered breathing: role of, 1442
- Airway obstruction: See also Pulmonary diseases, chronic obstructive; acceptability, reproducibility and sensitivity of forced expiratory volumes and peak expiratory flow during bronchial challenge testing in child asthmatics, 1843
- brain natriuretic peptide blood levels in the differential diagnosis of dyspnea, 2047
- central, tracheobronchial stenting in the terminal care of cancer patients with, 1811
- chronic, in-hospital short-term training program for patients with, 1500
- morbid obesity in the medical intensive care unit, 1989
- patterns of lung disease in a "normal" smoking population: are emphysema and airflow obstruction found together? 743
- predictors of oxygen desaturation during submaximal exercise in 8,000 patients, 88
- Alabama, value of *Mycobacterium tuberculosis* fingerprinting as a tool in a rural state surveillance program, 1877
- Albumin, microalbuminuria: simple, inexpensive and dynamic marker of critical illness, 1769
- predictive value of microalbuminuria in medical intensive care unit patients: results of a pilot study, 1984
- pulmonary and extrapulmonary effects of increased colloid osmotic pressure during endotoxemia in rats, 1655
- Albuterol, effects of an inhaled β_2 -adrenergic agonist on lower esophageal function: a dose-response study, 1184
- perception of dyspnea in patients with mild asthma, 409
- Alcohol, isopropyl, intoxication, gait disturbance, confusion, and coma in a 93-year-old blind woman, 295
- Alcoholism, severe community-acquired pneumonia due to *Acinetobacter baumannii*, 1072
- Allergy: See Hypersensitivity
- Allogeneic bone marrow transplantation: See Bone marrow transplantation
- Allograft failure: See Graft failure
- α_1 -antitrypsin deficiency: See Antitrypsin
- Alternative therapies among adults with a reported diagnosis of asthma or rhinosinusitis: data from a population-based survey, 1461
- for asthma: reason for concern? 1433
- Altitude sickness, pulmonary edema associated with scuba diving: case reports and review, 1686
- Alveolar-arterial oxygen pressure, sarcoidosis: the value of exercise testing, 93
- Alveolar proteinosis: See Proteinosis
- Alveoli, alternative mechanisms for long-acting β_2 -adrenergic agonists in COPD, 258
- alternative mechanisms for long-acting β_2 -adrenergic agonists in COPD, 258
- dead space fraction, steady-state end-tidal, and D-dimer: bedside tests to exclude pulmonary embolism, 115
- dead space, re-emergence of an "orphan" test for pulmonary embolism, 5
- edema, treatment of ARDS, 1347
- hemorrhage, AIDS-related: a prospective study of 273 BAL procedures, 1078
- hemorrhage as a complication of treatment with abciximab, 126
- hemorrhage associated with antiphospholipid syndrome, 323
- hemorrhage, time course of hemosiderin production by alveolar macrophages in a murine model, 2013
- Macklin effect: a frequent etiology for pneumomediastinum in severe blunt chest trauma, 543
- macrophages, effect of age on respiratory defense mechanisms: pulmonary bacterial clearance in Fischer 344 rats after intratracheal instillation of *Listeria monocytogenes*, 240
- rapid epithelial fluid clearance following lung lavage in pulmonary alveolar proteinosis, 271
- volume, increased effective lung volume following lung volume reduction surgery in emphysema, 1157
- Ambulatory care, diagnostic and prognostic value of Holter-detected ST-segment deviation in unselected patients with chest pain referred for coronary angiography: a long-term follow-up analysis, 834
- fluoroquinolones for respiratory infections: too valuable to overuse, 1771
- treatment experience of multidrug-resistant tuberculosis in Florida, 1994-1997, 343
- American College of Chest Physicians, Committee on Manpower of Pulmonary and Critical Care Societies: a report to membership, 327
- pneumothorax: what's wrong with simple aspiration? 1041
- American Lung Association, is anyone paying attention? 1431
- American Thoracic Society, Committee on Manpower of Pulmonary and Critical Care Societies: a report to membership, 327
- international conference for the development of consensus on the diagnosis and treatment of ventilator-associated pneumonia, 955

- Aminoglycosides, severe community-acquired pneumonia due to *Acinetobacter baumannii*, 1072
- severe community-acquired pneumonia: the need to customize empiric therapy, 1053
- Amiodarone, in patients with chronic atrial fibrillation and left ventricular systolic dysfunction, restoration of sinus rhythm confers substantial benefit, 132
- is [it] an underrecognized cause of acute respiratory failure in the ICU? 275
- oral, postoperative, prevention of atrial fibrillation after cardiac surgery, the significance of, 1936
- Anyloidosis, pulmonary hypertension in patients with, 1735
- Anaerobic bacteria: See Bacteria
- Anaerobic threshold and thoracotomy chest pain, 1747, 1748
- Anatomic landmarks to estimate the length of the diaphragm from chest radiographs: effects of emphysema and lung volume reduction surgery, 444
- Anderson, W. McDowell, new *CHEST* editorial board members, 13
- Andes virus, Hantavirus pulmonary syndrome due to, in Temuco, Chile: clinical experience with 16 adults, 548
- Aneurysm, Swan-Ganz catheter-induced pulmonary artery pseudoaneurysm formation: three case reports and a review of the literature, 2105
- Angina pectoris, chronic stable, differential coronary calcification on electron-beam CT between syndrome X and coronary artery disease in patients with, 1525
- stenting to reverse left ventricular ischemia due to left main coronary artery compression in primary pulmonary hypertension, 1412
- Angiogenesis, evaluation of blood vessels and edema in the airways of asthma patients: regulation with clarithromycin treatment, 416
- 43rd annual Thomas L. Petty Aspen Lung Conference: mechanisms of pulmonary fibrosis, July Suppl., 1S-86S
- Angiography, coronary, diagnostic and prognostic value of Holter-detected ST-segment deviation in unselected patients with chest pain referred for: a long-term follow-up analysis, 834
- diagnosis of acute myocardial infarction in angiographically documented occluded infarct vessel: limitations of ST-segment elevation in standard and extended ECG leads, 1540
- magnetic resonance, diagnosis of pulmonary arterial hypertension and pulmonary embolism with, 1556
- prognostic correlates of cardiac output and, by cardiopulmonary exercise testing in patients with anterior myocardial infarction, 825
- Angioplasty, effect of primary, on total or subtotal left main occlusion: analysis of incidence, clinical features, outcomes, and prognostic determinants, 1212
- fibrinolysis or, in acute myocardial infarction? 1747
- successful primary percutaneous transluminal coronary, clinical significance of coronary flow to the infarct zone before, in acute myocardial infarction, 1959
- Angiosarcoma, cystic upper lobe lesion in a healthy nonsmoking man, 1725
- Animal investigations: See Laboratory and animal investigations
- Ankylosing spondylitis, incidence of pleuropulmonary symptoms in, 320
- Anoxemia, effects of supplemental oxygen during activity in patients with advanced COPD without severe resting hypoxemia, 437
- hypoxemia explained 36 years later, 1738
- nocturnal hypoxemia is common in primary pulmonary hypertension, 894
- outcome prediction of emergency patients by noninvasive hemodynamic monitoring, 528
- predicting sleep-disordered breathing in patients with cystic fibrosis, 1239
- pulmonary alveolar proteinosis causing severe hypoxemic respiratory failure treated with sequential whole-lung lavage utilizing venovenous extracorporeal membrane oxygenation: a case report and review, 1024
- Anoxia, home oxygen requalification, 318
- Anthropometry, relationship between craniofacial abnormalities and sleep-disordered breathing in Marfan's syndrome, 1455

- plasma markers of endothelial dysfunction in pulmonary hypertension, 1226
- should echocardiography of the right ventricle help determine who receives thrombolysis for pulmonary embolism? 6
- spontaneous hemomediastinum complicating steroid-induced mediastinal lipomatosis, 311
- thromboembolic prophylaxis in total joint replacement, 302
- treatment of warfarin-associated coagulopathy: a physician survey, 1972
- Anti-inflammatory agents, relationship between asthma medication and antibiotic use, 1485
- treatment of ARDS, 1347
- Antioxidants, antiprotease status and, in peripheral blood and BAL fluid after cardiopulmonary bypass, 1599
- oxidative stress hypothesis of congestive heart failure: radical thoughts, 2035
- treatment of ARDS, 1347
- Antiphospholipid syndrome, alveolar hemorrhage associated with, 323
- Antiprotease, antioxidant status and, in peripheral blood and BAL fluid after cardiopulmonary bypass, 1599
- Antiretroviral therapy, highly active, pulmonary manifestations of HIV infection in the era of, 1888
- paradoxical worsening of tuberculosis in HIV-infected persons, 193
- Antithrombotic agents, in coronary artery disease, Jan. Suppl. vol. 119: 228S-252S; erratum, vol. 120:1427
- in patients with mechanical and biological prosthetic heart valves, vol. 119:220S [Jan. Suppl.]; erratum, vol. 120:1044
- Antitoxin, clinical predictors of respiratory failure and long-term outcome in black tar heroin-associated wound botulism, 562
- Antitrypsin, augmentation therapy in α_1 -antitrypsin deficiency, 687
- Antituberculous drugs for Wegener's granulomatosis, 2112
- Anti-vasoactive intestinal peptide/NTM antibodies, role of passive immunization in HIV-positive patients: a case report, 662
- Aorta, thoracic, a 53-year-old man with hemoptysis, 298
- Aortic atresia, hypoplastic left-heart syndrome: the first description of the pathophysiology in 1851; translation of a publication by Dr. Bardeleben from Giessen, Germany, 1368
- Aortic intramural hematoma: an increasingly recognized and potentially fatal entity, 1340
- Aortic root replacement in a patient with vancomycin-resistant *Enterococcus faecium* endocarditis and leukemia, 1744
- APACHE II, clinical course and outcome of patients admitted to an ICU for status asthmaticus, 1616
- microalbuminuria: simple, inexpensive and dynamic marker of critical illness, 1769
- negative fluid balance as predictor of mortality, 1424, 1425
- predicting mortality in patients suffering from prolonged critical illness: an assessment of four severity-of-illness measures, 928

- Apical fibrobullous disease, incidence of pleuropulmonary symptoms in ankylosing spondylitis, 320
- Apical perfusion fraction: See Lung
- Apnea-hypopnea index, impact of different criteria for defining hypopneas in, 909
- impact of menopause on the prevalence and severity of sleep apnea, 151
- mandibular advancement device in patients with obstructive sleep apnea: long-term effects on apnea and sleep, 162
- relationship between craniofacial abnormalities and sleep-disordered breathing in Marfan's syndrome, 1455
- Apnea, sleep: See Sleep apnea; Sleep apnea syndromes; Sleep apnea syndromes, obstructive
- Apoptosis, endothelial cell, initial evidence of, as a mechanism of systemic capillary leak syndrome, 1301
- Appliances: See Equipment
- ARDS: See Respiratory distress syndrome, adult
- L-arginine, secondhand tobacco smoke impairs rabbit pulmonary artery endothelium-dependent relaxation, 2004
- Aris, Robert M., new *CHEST* editorial board members, 13
- Arrhythmias, supraventricular, predicting the postoperative outcome after lung surgery, 1761
- refractory, COPD may increase the incidence of, following pulmonary resection for non-small cell lung cancer, 1783
- Arterial BP monitoring, invasive, in trauma and critical care: effect of variable transducer level, catheter access, and patient position, 1322
- Arteriovenous fistula, multiple coronary artery-left ventricular fistulas associated with hereditary hemorrhagic telangiectasia, 1415
- Artificial respiration: See Respiration, artificial
- Asia, cardiac thrombus in Behçet disease, 688
- Aspen, 43rd annual Thomas L. Petty Lung Conference: mechanisms of pulmonary fibrosis, July Suppl., 1S-86S
- Aspergillus, pulmonary fungal infection: emphasis on microbiological spectra, patient outcome, and prognostic factors, 177
- Aspiration, chronic, without gastroesophageal reflux as a cause of chronic respiratory symptoms in neurologically normal infants, 1190
- Aspiration, fine-needle: See Biopsy
- Aspiration, simple, what's wrong with [it]: pneumothorax, 1041
- Asthma: See also Pulmonary diseases, chronic obstructive; acceptability, reproducibility and sensitivity of forced expiratory volumes and peak expiratory flow during bronchial challenge testing in child asthmatics, 1843
- acute, inspiratory muscle strength in, 757
- adult-onset, β_2 -adrenoceptor polymorphism and body mass index are associated with, in sedentary but not active women, 1474
- airway inflammation as an assessment of chronic nonproductive cough, 1114
- alternative therapies among adults with a reported diagnosis of rhinosinusitis or: data from a population-based survey, 1461
